CASE STUDY OF **PRIYANKA (CLASS-V)**

Priyanka is daughter of Mr Gangaram who works as a daily hamali. He earns nominally as per the work or if he goes to work. He has a drinking problem due to which he is unable to support fully for his family due to which her mother is working as a maid servant and earns little money which is helpful to run the house hold expenses. Priynaka's father has six children – Priynaka, who is eleven years old is studying at Soham for Kids from 2010 June. She also has 3 brothers and 2 sisters.they are paying the rent of Rs.1500/- per month. Priynaka's parents needs to take care of their 6 Kids and house hold expenses. As a result, there was no income to pay for education, until Soham for Kids was established. This is because at Soham for Kids we offer completely free quality education, nutrition food and healthcare.

Mr Gangaram who is a daily hamali earns as little as Rs 4000/- per month. Priyanka is 4th in her family and the elder siblings are drop-outs from schooling while youngest siblings are studying in other school. It is very difficult to meet their basic needs as they are migrated from Nepal for their survival. It is really difficult to send their children to a private school. When they got admission into Soham for kids school, it's like their dreams come true for getting English medium education free of cost.

She is enjoying his time at Soham School.

The parents are very happy & great full to the management & staff of Soham for kids study centre.
